PRELIMINARY YEAR END BUDGET REPORT: DECEMBER, 2007

This report presents a 2007 preliminary year end update of Snohomish County financial operations. While the information contained in the report is substantially complete, the information is subject to possible adjustments based upon the County's financial year end closing.

General Overview

The national economy is slowing down and could be in or going into a recession due to a credit crunch and major slowdown in the real estate market. Snohomish County continues on a solid economic foundation. For Snohomish County, 2007 did not result in the sort of outstanding economic growth experienced in 2005 and 2006. But, overall the economy is stable and unemployment remains low.

General Fund

The County General Fund again grew its fund balance in 2007. Figure 1 (below) summarizes changes in the County's fund balance in 2007 and expectations for stability in 2008.

FIGURE 1: GENERAL FUND ENDING BALANCE RECONCILIATION

Fund Balance Factor	Amount
Fund Balance 1/1/07	30,893,347
Plus Year 2007 Preliminary Year end Revenue	200,829,687
Less 2007 Preliminary Year end Expenditures	(199,302,413)
Preliminary Year end Fund Balance 12/31/07	32,420,621
Plus Year 2008 Adopted Budgeted Revenue	207,552,294
Less 2008 Adopted Budget Expenditures	(210,690,491)
Plus Minimum Anticipated Under-Expenditures	3,178,586
Budgeted Year end Fund Balance 12/31/08	32,461,010
Ratio of Fund Balance to Revenues 12/31/08	17.40%

YTD Revenue

2007 year end General Fund revenue was seven tenths of a percent below budget. Within that aggregate on budget summary, the most significant individual variances are summarized below:

1. Sales Tax revenue was 2.6% or just under \$1 million stronger than anticipated reflecting the ongoing strength of the Snohomish County economy.
2. Property Tax and other Penalty Receipts were \$1.44 million less than budgeted. The reduction in revenue from this category reflects the tightening of the credit market for delinquencies as a means of bringing these payments current.
3. Jail detention fees were \$1.75 million less than anticipated due to increased levels of County inmates and a projected reduction of County capacity for housing inmates from other jurisdictions.
4. Investment interest exceeded budgetary projections by \$1.47 million reflecting higher than anticipated investment yields.

In general, the projection does not reflect specific strategic plans or trend changes occurring on a year-by-year basis. There are some exceptions to this approach:

- 2008 is based upon the Adopted 2008 budget.
- The projection does not adjust revenues or expenditures for future annexations.
- Annual pension increases (in addition to trend) of one percent of salaries have been factored in throughout the life of this projection through the State's 2010 fiscal year.
- This model anticipates a continued decrease in Corrections revenue in 2009-2010.
- Interfund Transfers are not included in revenue for the purpose of calculating Fund Balance percentage.

Department Expenditures

No County expenditure trends were of concern during 2007. The General Fund expended \$4.6 million less than modified budgetary levels. This positive variance reflects strong cost management across department lines. Expenditure patterns in other County funds were consistent with historical patterns.

Real Estate Excise Tax

As indicated in last quarter's report, real estate sales declined for the fourth quarter of 2007. Total Real Estate Excise Tax receipts for 2007 were \$5.7 million less than in 2006. The downturn in real estate sales in the second half of 2007 is a result of tightening in credit markets and reduction in consumer confidence. Achieving 2008's budgeted levels would require increased availability of reasonably priced mortgage credit for purchasers and a strengthening of the real estate market. We believe it is likely that 2008 REET revenues will fall short of budgeted levels. REET revenue trends will be monitored very closely during 2008.

Economic Outlook

The Federal Reserve is ready to lower interest rates again to brace the economy even as zooming oil prices spread inflation. Battling cross-currents, the Federal Reserve Bank must make a choice: keep the economy afloat after mighty blows from the housing and credit crises or focus on the threat of future price increases. Federal Reserve Board Chair Ben Bernanke suggested in late February that for now, the No. 1 job is shoring up the economy. He pledged anew to slice a key interest rate and help the economy, which many fear is near a recession if not already in one.

The Puget Sound area represents one of the strongest economic areas in the nation due to strong exporting, Microsoft and Boeing's success, and related job growth. A slowdown in the region's real estate market does not threaten a local recession, but moderates the overall strength of the economy.

Employment Snohomish County's jobless rate edged up last month as construction, retail and restaurant industry slowdowns finally outweighed new jobs added by aerospace companies. January saw a net loss of 2,300 jobs countywide from December, according to the state Employment Security Department. The county's labor force, excluding farm jobs, fell to just under 265,000, from 267,000. Still, at 4.3 percent, the local unemployment rate remains below the national average of 4.9 percent. It's also below January's statewide rate of 4.5 percent, which itself is a near-record low.

Snohomish County still could count about 20,500 jobs more in January than in the same month a year ago. Every major sector except for financial services has added jobs here since the start of 2007. In 2007, Snohomish County was home to 29 percent of all the jobs created in the state.

County Sales Table 5 (County Sales by SIC Code) reports overall retail and wholesale sales within the County. The information contained in this report relates to the period ending September 30th, 2007. The lag is a result of the time it takes for the State to receive and then process the data.

Retail sales for the third quarter of 2007 was 4% over retail sales for the same quarter in 2006. On a down note, new and used vehicle sales which represent about 20% of total County sales decreased by over 2.5% as compared to the same quarter in 2006.

Boeing Boeing Co. posted better-than-expected fourth-quarter 2007 earnings on the strength of still-booming commercial airplane sales and improved productivity, easing investor concerns for now about the possibility of another setback for its thrice-delayed 787 Dreamliner. Boeing's fortunes will largely rise or fall on the success of the 787, the world's first large commercial airplane made mostly of carbon-fiber composites. That program's status will be more clear after the company succeeds in "powering up" or turning on the first aircraft and its 92 electronic systems, an event now expected in April.

Home Sales Sales of single-family homes and condominiums dropped by 0.4 percent across the nation in January to a seasonally adjusted annual rate of 4.89 million units, the slowest sales pace on records going back to 1999. Nationally, the median price of a home sold in January dropped 4.6 percent from a year ago.

Home sales in Snohomish County continued to drop in January compared to a year ago, but median prices dipped only slightly. The number of homes listed for sale in January was 47 percent higher than a year ago. Sales of single-family homes were off by more than 30 percent compared to a year ago. The median price for a single-family home stood at \$365,000 in January, down less than 2 percent from last year's median of \$370,700.
