QUARTERLY BUDGET REPORT: JUNE, 2008

This report will provide a second quarter 2008 financial update for Snohomish County fiscal operations.

General Overview

Snohomish County's economy is one of the strongest in the country. Local unemployment is low and industry is strong. However, the County is being impacted by trends in national consumer confidence and by decreased discretionary spending due to the rise in cost for fuel and other necessities. The real estate market remains slow as a result of more severe national housing trends.

General Fund

2008 County General Fund revenues are projected to fall \$9.3 million below budgeted levels. A modified hiring freeze and other spending controls have been put in place to reduce 2008 General Fund expenditures and to ensure that sufficient vacant positions exist to reduce the possibility of any lay-offs. The 2009 – 2010 Executive Recommended Budget will reflect a lower base of County revenues and a fiscally restrained expenditure plan that lives within those revenues.

FIGURE 1: GENERAL FUND ENDING BALANCE RECONCILIATION

Fund Balance Factor	Amount
Fund Balance 1/1/07	\$30,898,635
Plus Year 2007 Revenue	199,681,159
Less 2007 Expenditures	199,331,808
Year end Fund Balance 12/31/07	31,247,986
Plus Year 2008 Current Projected Revenue	198,406,768
Less 2008 Budgeted Expenditures	213,403,124
Plus 3.0% Anticipated Under-Expenditure	6,402,094
Projected Year end Fund Balance 12/31/08	\$22,550,729
Ratio of Fund Balance to Revenues 12/31/08	11.7%

YTD Revenue

The 2008 General Fund revenue shortfall is projected to be \$9.3 million. The first quarter 2008 budget-to-actual report (published three months ago) projected reductions in investment earnings, real estate excise tax receipts and fees from recording of legal instruments. All of these shortfalls are directly related to the national real estate market slowdown. These projections have not substantially changed.

During the second quarter of 2008, a gallon of gas in Washington State went up in cost by 25%. Driven by increases in costs during that quarter, the annual local consumer price index utilized by the County in benchmarking labor costs rose to 6.2% – a level significantly higher than the 3.3% experienced in 2007. The

YTD Rev. (cont.) impact of an increase in cost for non-discretionary items is that many citizens have fewer available resources to purchase discretionary items. This results in decreased sales tax revenue. The County receives sales tax from the State on a two-month lag. For example, sales tax due to the County from purchases that occur in January is remitted to the County in March. Thus, the first quantified impact of the April retail sales decline was available at the end of June when the State notified the County of its June sales tax remittance.

The General Fund projection of year-end 2008 sales tax revenue is based upon two months of data from the period after gas prices increased. The projection assumes a continued reduction in discretionary spending reflecting increased consumer expenditures for fuel. Sales tax receipts for April were 14.4% below budget projection and 11.7 % below 2007 levels. Sales tax receipts for May were 12.7% below budget projection and 6.9 % below 2007 levels. The analysis assumes that some of the initial shock of gas prices will moderate as the year progresses and receipts will run about 10% below budget for the third quarter and about 6% below budget for the fourth quarter of 2008. The analysis predicts that 2008 Sales Tax revenues to the County will fall about \$4.3 million short of budget.

General Fund Real Estate Excise Tax fee revenue will be lower than anticipated in the first quarter report and property tax and property tax collection penalty receipts will be slightly lower than anticipated. Finally, it appears that Sale of Timber from the State has slowed down – a reflection of reduced construction demand for timber.

*YTD
Expenditures*

Snohomish County's economy is one of the strongest in the country. However, it is critical that the County manage its fiscal affairs in a cautious fashion. County residents are concerned about the uncertainty of a changing international economy, a presidential election that will affect their futures and the impact of oil on their pocketbooks. They are behaving in an appropriately conservative manner. The County Executive and Council have expressed that it is important that we do the same.

In response to this situation, Finance, which reviews all County positions before authorizing hiring officials can hire is denying all requests for authorization to fill vacant General Fund related positions with the exception of requests to fill uniformed public safety positions which it will continue to consider on a case-by-case basis. In July, the Executive issued an executive order relating to Fiscal Accountability Policies to assure that all County spending policies appropriately respond to the economic challenges referenced in this report. For the first six months of 2008, the General Fund has expended 48% of budget. With the spending controls that have been put in place, we are confident that the County will under-expend its 2008 budget by an amount in excess of the 3% is it targeting.

5-Year Trend

The table on the following page represents a high level multi-year projection of Snohomish County General Fund revenue and expense. An underlying assumption in this analysis is that the County will manage within available revenues and that the 2009 – 2010 biennial County General Fund budget will manage within available resources.

FIGURE 3: GENERAL FUND FIVE-YEAR PROJECTION

RESOURCES:	Actual 2007	Adopted/ Projected 2008	Projected 2009	Projected 2010	Projected 2011	Projected 2012	Projected 2013	Growth Rate

FUND BALANCE:								
Increase (Decrease) in Fund Balance	349,351	(8,697,257)	228,777	646,627	1,055,457	1,454,028	1,838,203	n/a
Ending Fund Balance	31,247,986	22,550,729	22,779,506	23,426,133	24,481,590	25,935,618	27,773,822	n/a
Fund Balance as % of Revenue w/o Interfund Transfers	16.7%	11.7%	11.4%	11.3%	11.4%	11.6%	11.9%	n/a

In general, the projection does not reflect specific strategic plans or trend changes occurring on a year-by-year basis. However, there are some specific exceptions to this approach:

- 2008 Revenue is based upon the General Fund revenue projection included in this report.
- 2008 Expenditures are based upon budgeted levels.
- The projection assumes 3% under-expenditures for 2008.
- Years 2009 through 2013 include revenue financial projections and Executive targeted fund balance levels.

Real Estate Excise Tax

As will be reviewed later in this report, the national housing slump continues to impact the Puget Sound region and has a direct impact on Real Estate Excise Tax collections. Revenues from this source are running significantly below budgeted projections.

The County Council has reviewed a 2008 expenditure plan for Real Estate Excise Tax receipts at a revenue level of \$12 million. The Executive has directed departments to limit expenditures to that plan and level. Because it is possible that revenues will be lower than this level, the Executive will be presenting Council with a contingency plan that assumes that the County collects real estate excise tax at the level of \$10.5 million, although based upon year-to-date revenues, the year-end receipts will be above that level (see Figure 3 below).

FIGURE 3: REAL ESTATE EXCISE TAX REVENUES

Element	2008 Revenue
Forecast YTD – Amount	9,922,081
Actual YTD Receipts – Amount	5,212,083
Budgeted Amount for Full Year	21,777,496
Projected Year End Revenue	11,439,749
Projected Year end Surplus (Deficit)	(10,337,747)

Economic Outlook

The nation's economy shrank slightly at the end of 2007 and expanded at a weaker-than-expected 1.9 percent annual pace during the last three months, despite tax rebate checks aimed at boosting growth. The contraction evident in the fourth quarter of 2007, when the GDP fell at a 0.2 percent rate, "got interrupted by the rebate checks," as reported in analysis from Standard and Poor's, but the economy "will go back to declining after people finish spending their checks." Government tax rebates to consumers, federal and state government spending and surging exports were the main sparks to second-quarter growth, which eclipsed the sluggish 0.9 percent rate of the first three months of the year.

The Federal Reserve is expected to hold rates steady as it grapples with dueling concerns -- weak economic activity and inflation. In June, the Fed halted a nearly year-long rate-cutting campaign to shore up the economy because lower rates would aggravate inflation. On the other hand, boosting rates too soon to fend off inflation could hurt the economy.

Gasoline remains above \$4 a gallon in Snohomish County and costs \$1.27 more than a year ago, according to AAA. However, the average price locally is down 20 cents from its peak in late June. The reason why can be explained in two words: less driving. The Federal Highway Administration reported that during May, Americans drove 9 billion fewer miles than they did in May 2007. The U.S. Department of Energy reported that U.S. fuel consumption was down 3 percent in recent weeks compared with a year ago.

Boeing

Boeing delivery projections show the company this year should finally reclaim the production lead it lost to Airbus five years ago, and predicts airplane deliveries from its Puget Sound-area factories will continue to climb through 2010. Yet as some of the world's airlines struggle to stay in business and others cut back service, concerns remain about the level of aircraft production in 2010 and beyond.

Boeing has major labor negotiations going on at this time. Less than five weeks remain before the contract between Boeing and the International Association of Machinists expires. The negotiation schedule for the Society of Professional

Engineers Employees in Aerospace – SPEEA – is not as pressing. The engineers' contract doesn't expire until Dec. 1.

The Boeing Co.'s prospects of winning a "do over" competition to supply the Air Force with 179 air-refueling tankers built at its Everett plant may have been given a set back when the Pentagon announced its revised requirements. A key change – giving extra credit for fuel offload capability – favors the bigger Airbus plane that will be offered by Northrop Grumman and EADS. The contract for 179 tankers is the first of three deals potentially worth up to \$100 billion to replace the Air Force's entire tanker fleet over 30 years.

Real Estate The nation continues to endure a steep downturn in housing that has pushed the overall economy close to a recession. It has also triggered a severe credit crunch, forcing U.S. financial institutions to cope with billions of dollars of losses from bad mortgage loans. Across much of the country, economists believe that sales of both new and existing homes will remain depressed for much of the rest of the year with prices continuing to fall into the spring of next year. The problem is that soaring mortgage defaults are dumping more homes on an already glutted market. That's causing banks to tighten up on lending standards, making it difficult for potential buyers to qualify for homes.

Home sales in Snohomish County appeared to improve in July as sales and prices were both stronger than they were in June. The combined median price for condominiums and single-family homes in July was \$332,500, or \$3,000 more than what homes sold for in June. That \$332,500 figure was 4.52 percent less than prices were a year ago. In June, the median price had fallen 7.2 percent from the year-ago figures.

A representative of the State Office of the Revenue and Forecast Council indicated in a July discussion with County staff that the State real estate market should begin to show signs of improvement in the fourth quarter of this year.

Employment The nation's unemployment rate climbed to a four-year high of 5.7 percent in July as employers cut 51,000 jobs, dashing the hopes of an influx of young people looking for summer work. The increase in the unemployment rate to 5.7 percent, from 5.5 percent in June, in part came as many young people streamed into the labor market looking for summer jobs. This year, fewer of them were able to find work according to the federal government. The unemployment rate for teenagers jumped to 20.3 percent, the highest since late 1992. More job cuts are expected in coming months. There is growing concern that many people will pull back on their spending later this year when the bracing effect of the tax rebates fades, dealing a dangerous blow to the fragile economy. These worries are fanning recession fears.

Statewide, unemployment rose slightly in June, rising from 5.3 percent in May to 5.5 percent in June. The number of jobs stayed about the same, meaning the increase came from more job seekers entering the market.

Snohomish County kept unemployment at bay by adding about 800 jobs in June. The unemployment rate in Snohomish County remained at 4.5 percent, unchanged from last month. In the county, there were an estimated 262,700 workers in June. The Boeing Co. and other aerospace employers added 400 positions, as did local government. Restaurants and bars added 300 and retail added 200. The construction industry also added 200 jobs, growing for the first time this year.

County Sales

Table 4 on page 9 summarizes County retail and total sales for the quarter ending 3/31/2008 and for the three prior quarters. Information in the report echoes the economic concerns reviewed elsewhere in this report. Total retail sales for the quarter are 3.75% lower than for the first quarter of 2007 – the biggest drop since the County started including this information in its quarterly reports in 2001. The reduction is driven by lower sales in large discretionary items such as furniture, electronics, and vehicles. Building materials continues to perform at a level below 2007 while construction industry overall receipts were 6.75% below last year reflecting the real estate industry's slow down.

Closing Comments
