PRELIMINARY YEAR END BUDGET REPORT: DECEMBER, 2009

This report presents a 2009 preliminary year end update of Snohomish County financial operations. While the information contained in the report is substantially complete, the information is subject to possible adjustments based upon the County’s financial year end closing.

General Overview

Responding to the worst recession since the 1930’s continues to be the primary focus of federal, state, and regional governments. High unemployment and economic uncertainty, combined with households’ diminished wealth due to fallen property values, will continue to depress consumption impacting governmental revenues. In 2009, Snohomish County continued to aggressively manage its budgets against declining revenues and begins 2010 with the same focus.

General Fund

The depth and length of this recession has impacted 2009 General Fund revenues. And, in spite of national gross domestic product numbers and other possible reasons for optimism, fourth quarter revenues were lower than anticipated due to continued unemployment and low consumer confidence. Snohomish County’s General Fund fund balance began the year at \$13.7 million. Based upon preliminary 2009 actual revenues and expenditures, yearend fund balance will be about \$8.7 million, a drop of \$5 million. A budget revision may be necessary in the first quarter of 2010. The Council has directed Council staff to work with Executive staff to review 2010 adopted budget revenue estimates as a first step in making this determination in the face of significant revenue adjustments referenced in the YTD Revenue section below.

FIGURE 1: GENERAL FUND ENDING BALANCE RECONCILIATION

Fund Balance Factor	Amount
Fund Balance 1/1/09	\$ 13,716,247
Plus Year 2009 Preliminary Year end Revenue	\$ 192,317,216
Less 2009 Preliminary Year end Expenditures	\$ (197,408,199)
Preliminary Year end Fund Balance 12/31/09	\$ 8,625,264
Plus Year 2010 Adopted Budgeted Revenue	\$ 203,072,869
Less 2010 Adopted Budget Expenditures	\$ (203,000,425)
Projected Year end Fund Balance 12/31/10	\$ 8,697,708
Ratio of Fund Balance to Revenues 12/31/10	4.72%

YTD Revenue Preliminary yearend report summarizes a negative variance of \$6.97 million. Notable fourth quarter revenue shifts that contributed to this variance include:

1. Modified budget revenue projection anticipated sales tax stabilization (as compared to 2008) at an earlier date than occurred. General Sales Tax Receipts for August, September and October (received during the fourth quarter) were down over \$700 thousand from 2008’s depressed levels. November receipts (received on January 30th)

Total General Fund	\$ 199,292,556	\$192,317,216	96.5%	\$(6,975,340)	

were slightly stronger than in 2008. We will receive the December results later this month. Total yearend variance for General Sales Tax was \$2.2 million. The Law and Justice Sales tax variance was \$0.6 million.

2. The Federal Grants negative \$607 thousand variance reflects an accounting placement of the related revenue rather than a shortfall in receipts. The subject grant dollars are being transferred from another fund into the General Fund and are thus accounted for in the Interfund Transfers revenue source group.
3. Recording of Legal Documents decreased by \$471 thousand due to drops in real estate sales and mortgage refinancing.
4. Motor Vehicle License fees dropped by \$486 thousand due to consumer reluctance to license non-necessary transportation. County residents are not paying vehicle fees on secondary vehicles. 2009 registrations for off-road vehicles, snowmobiles, motor-homes, campers and travel trailers are all down from 2007 levels.
5. Investment interest dropped by \$319 thousand due to the Federal Reserve's policy of holding down interest rates.
6. Many other miscellaneous line items that reflect consumer confidence or ability to pay declined from department projections reflecting the overall economy.

*General Fund
Expenditures*

Aggregate General Fund under-expenditures were \$2.48 million. These under-expenditures were net of absorption of department directed savings and department expenditures that were greater than their authorized budgets. What this means is that county managers have managed their budget and achieved targeted budget savings. Spending was on target. The challenge we face continues to be falling revenues.

Those over-expenditures are being addressed with a budget appropriation ordinance currently at the Council. Departments with over-expenditures include the Superior Court (\$208 thousand), Office of Public Defense (\$78 thousand), District Court (\$108 thousand) and the Boundary Review Board (\$15 thousand).

The 2010 adopted budget assumed stabilization of the economy and flat revenues during the year, but no dramatic improvements. However, many economists have acknowledged that an accelerated slowdown – a possible double dip in this recession – is still a concern. Ongoing economic uncertainties include the level of unemployment, commercial real estate vacancies, residential mortgage defaults, consumer confidence and the ongoing credit crunch which affects businesses and consumers alike.

5-Year Trend

Figure 3 includes a five-year projection for General Fund revenues, expenditures and fund balance. In general, the projection does not reflect specific strategic plans or trend changes occurring on a year-by-year basis. However, there are some specific exceptions to this approach as noted below:

- The projection variables have been updated to reflect a 0.5% lower growth trend for the "Taxes" line item due to the overall percentage of taxes that are property taxes; a 1.5% reduction in salary growth trend to reflect lower inflation; and an increased 0.2% trend for projected personnel benefits including pensions.

- The projection does not adjust, for future years, the level of managed savings included in the 2010 budget.
- In view of the managed savings assumption, the projection assumes 0.5% of budget for under-expenditures which is lower than historical levels.
- 2010's adopted budget does not reflect annexations referenced below. There is no fund balance impact of the proposed adjustments.
- Revenues and expenditures are adjusted to reflect estimated impact of probable annexations in 2011 and 2012. The impacts are reflected in the following table:

Annexation Increase (Decrease) in Revenue and Expense			
Revenue:	2010	2011	2012
Tax	\$ (1,102,878)	\$ (4,896,517)	\$ (1,977,103)
Intergovernmental	\$(371,622)	\$ (1,649,914)	\$(666,198)
Fees	\$371,890	\$1,651,104	\$666,679
Expense:			
Salary	\$(893,114)	\$ (3,965,215)	\$ (1,601,064)
Benefits	\$(209,496)	\$(930,112)	\$(375,558)
Net Impact:	\$0.00	\$0.00	\$0.00

Real Estate Excise Tax

Fourth quarter 2009 home sales picked up over prior 2009 quarters. This increase was most likely a result of the federal tax credit for first time home buyers. For the year, Snohomish County Real Estate Excise Tax revenues receipts were almost \$7.7 million – \$700 thousand more than the floor for revenues for which the County had established a contingency plan. 2010 revenues will depend upon the impact and length of the federal tax credit, unemployment levels, consumer confidence and the country’s ability to address liquidity and credit challenges in the mortgage industry.

FIGURE 4: REAL ESTATE EXCISE TAX REVENUE RECEIPTS

Element	2007	2008	2009	2010
Actual Receipts	\$21,099,233	\$9,661,387	\$7,683,502	NA
Adopted/Modified Budget	22,256,000	10,500,000	10,268,959	\$9,708,666
Year End Variance	(\$1,156,768)	(\$838,613)	(\$2,585,457)	NA

Economic Outlook

The country’s gross domestic product increased 5.7 percent in the fourth quarter of 2009. That statistic might lead some to believe that County revenues would have improved or will be improving. However, more than half of that growth -- 3.4 percent – was attributable to increases in inventories. That increase in inventories (wholesale purchases) does not produce County revenues. It will be a good thing for the future overall economy if other drivers such as unemployment and consumer confidence and purchasing improve. However, if other elements of the economy do not improve, and future inventories are allowed to decline, spending on inventory would trend down and our GDP would reflect it.

Employment January’s national unemployment rate showed an unexpected decline from 10 percent to 9.7 percent. It was the first drop in seven months. The government now estimates 8.4 million jobs vanished in the Great Recession. And economists say the nation will be lucky to get back 1.5 million of them this year. They also warn it will take until the middle of the decade for the job market to return to normal. The economy is growing, and normally job creation would be strengthening. But the job market is weighed down by employers who remain slow to hire because consumers are not spending enough. Companies worry about their prospects once government stimulus aid fades.

Snohomish County’s yearend unemployment rate again pushed up into double digits, climbing to 10.3 percent over November’s seasonally adjusted rate of 9.5 percent. The job market is usually one of the last things to recover following a recession and we need to closely watch this parameter.

County Sales Table 5 (County Sales by SIC Code) on page 10 reports overall retail and wholesale sales within the County. Gross Retail Sales for the third quarter of 2009 were 6.64% less than in the third quarter of 2008. Third quarter 2008 gross sales were 8.75%

less than in the third quarter of 2007. The last quarter which showed a year over year increase was the fourth quarter of 2007 over 2006.

Reductions in year over year sales were spread broadly over all categories with building supplies (negative 15.78%) and appliance and television purchases (negative 22.55%) continuing to show the largest year over year percentage sale declines. The fourth quarter of 2009 report which will be available in April should show some moderation of overall sale declines, but it is not anticipated that an overall year over year increase in sales will occur until late in 2010 at the soonest.

Boeing Co.

After delivering unexpectedly strong fourth-quarter earnings, Boeing management Wednesday defied the gloomy predictions of some analysts and laid out the case for a steady, albeit difficult, 2010. "The global recession has clearly affected our airline customers," said Boeing Chairman and CEO Jim McNerney. "Despite the challenging environment, our commercial backlog is holding strong." Boeing's full-year revenue was a record \$68.3 billion, though its profit was only \$1.3 billion, slashed by charges on the 787 and 747-8 programs totaling \$4.1 billion.

How Boeing fares in 2010 depends on its two new airplanes: the 787 Dreamliner, and the 747-8 jumbo. The plane-maker anticipates first deliveries of both jets by year-end. The 747-8 freighter - the biggest plane the company has ever built - successfully completed its first flight on February 8th. The huge plane took off from Everett's Paine Field shortly after noon and returned to Paine at 4:18 p.m. PST after an approximately 3 1/2-hour flight. The flight came just one day short of the 41st anniversary of the first flight of the original 747 model. At 250 feet long - more than twice the length of the Wright Brothers' first flight - the plane is about 18 feet longer than the existing 747-400 jumbo jet. Boeing also is developing a passenger version of the plane. It lists 76 orders for the freighter and 32 for the 747-8 passenger jet, with the vast majority from international customers.

Home Sales

People bought more homes in Snohomish County in January as prices continued to fall. The combined median price for single-family homes and condominiums in the county last month was \$267,995. That's about \$29,000 less than the median price of just a year ago, or down about 9 percent. Pending sales, deals made in January that didn't close, climbed 42 percent and closed sales weren't far behind, climbing 37.9 percent. There were 949 pending sales last month and 495 completed sales.

Statewide, the sale of existing homes in Washington surged in the fourth quarter of 2009, but prices remained soft. The Washington Center for Real Estate Research at Washington State University said home sales were up 21.3 percent in the fourth quarter compared to the third quarter. Sales were up 46 percent compared to the fourth quarter a year ago. But prices continued to drop. The median price for a home in Washington was \$244,000 in the fourth quarter, 8.5 percent lower than the fourth quarter of 2008. For the whole year, the median sale price was \$250,700, down 11.8 percent from 2008.
