NATIONAL PREPAREDNESS MONTH 2010

A PROCLAMATION BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

During National Preparedness Month, we stress the importance of strengthening the security and resiliency of our Nation through systematic preparation for the full range of hazards threatening the United States in the 21st century, including natural disasters, cyber attacks, pandemic disease, and acts of terrorism. This year marks the fifth anniversary of Hurricane Katrina, one of the most tragic and destructive disasters in American history. In remembrance of this national tragedy, we must reaffirm our commitment to readiness and the necessity of preparedness.

By empowering Americans with information about the risks we face, we can all take concrete actions to protect ourselves, our families, our communities, and our country. The Federal Emergency Management Agency's (FEMA) Ready Campaign provides simple and practical steps every American can take to be better prepared. At the community level, Citizen Corps enables volunteers to contribute to homeland security efforts by educating, training, and coordinating local activities that help make us safer, better prepared, and more responsive during emergencies. I encourage all Americans to visit Ready.gov and CitizenCorps.gov for more information and resources on emergency preparedness, including how to prepare a family emergency plan, create an emergency supply kit, and get involved in community preparedness efforts.
