1. **What training, experience, skills and abilities do you have that qualify you for the job of Master Pathology Technician at the Snohomish County Medical Examiner's Office? Tell us specifically about your experience with human autopsies and explain what the job duties you have performed in your past or current employment that are relevant to this position. (10 possible points)**

Points: \_\_\_\_\_

2. **Describe the tasks and functions that you typically perform in the morgue and for autopsy. Describe what you do independently, what you direct or oversee, and what you do under direct supervision of the Medical Examiner. (10 possible points)**

Points: \_\_\_\_\_

3. **Explain the processes and procedures for autopsies of infant deaths that are different from the typical autopsy. (10 possible points)**

Points: \_\_\_\_\_

4. **Examinations of suspicious deaths or homicides must follow a strict protocol to preserve evidence. Please describe these protocols: (10 possible points)**

Points: \_\_\_\_\_

5. **This is a leadership position working in partnership with management to support and carrying out the office goals and objectives. It is also a union position in Washington State Council of County and City Employees, AFSCME/AFL-CIO. As a result, you may find that you are required to carry out a program, policy, goal or objective that some your co-workers and peers in the bargaining do not like. How will you deal with this? Tell us about a specific experience in your work history that demonstrates that you have the skills and experience to successfully perform these leadership duties. (10 points)**
