

Career Path Services

Individualized vocational services based on a Career Path Service Plan designed to support a participant to pursue and/or maintain community employment

Targeted Outcomes:

- Career path planning and development is the basis for determining services.
- Services are individualized for each participant.
- Services are based on individual choices, preferences and support needs.
- All participants are supported to pursue and/or maintain community employment.
- Increases in wages earned and employment benefits received.

Additional Services:

- **Independent Planning Services:** Individualized person-centered planning to develop an individual's personal plan for the future and strategies to implement their career path goal.
- **Transition Resource Coordination:** Assistance to students in high school to make a successful transition from school to adult services and employment.
- **Orientation Services:** Information to individuals who are interested in Career Path Services on ways to navigate the system, understand rights etc.
- **Social Security Benefits Assistance:** Understand how work affects Social Security benefits, how to keep those benefits and explore possible work incentives.
