

Snohomish County Unified Development Code (UDC) Update Project Public Forum

Date: Thursday, February 4, 2010
Location: Snohomish County Campus, 3000 Rockefeller Ave., Everett
Robert J. Drewel Building (Admin East), Meeting Room 2
Time: 9:00 AM – 11:00 AM (session 1) / 6:30 PM – 8:30 PM (session 2)

Topics to be discussed at both sessions:

1. NPDES Stormwater Management Program overview
2. NPDES Project schedule update and upcoming Planning Commission briefings
3. Technical overview of the Drainage Manual and revisions to the Engineering Design and Development Standards (EDDS)

Background

Each year, the Washington State Department of Ecology (Ecology) requires Snohomish County to update its NPDES SWMP document and inform members of the public as to how they can be involved in and affect proposed actions.

Ecology also requires the County to revise its existing drainage, grading and low impact development codes, Engineering Design and Development Standards (EDDS), and Drainage Manual.

Please join us on February 4, 2010, when the Snohomish County Departments of Planning and Development Services and Public Works will present information on three topics: (1) an overview of the County's 2010 Stormwater Management Program (SWMP), which describes actions taken to comply with the National Pollutant Discharge Elimination System (NPDES) municipal stormwater permit; (2) an update of the NPDES project schedule, including the upcoming briefings for the Planning Commission; and (3) a technical overview of the proposed Drainage Manual and revisions to the EDDS.

To access more information about these topics prior to the public forum, visit the following web pages:
