

## Curbside Collection Service Can Save You Time and Money

**If** you've been hauling your own garbage to the transfer station because you thought curbside collection service was too costly, you'll be surprised to learn that it's less expensive than you think. With monthly and weekly rates, recycling and yard debris collection services, and special pick-ups of large, bulky items — it's more convenient than ever. So, before you plan another trip to the transfer station, call your hauler. What could be better than door-to-door service at affordable rates?

All haulers provide residential garbage, recycling and yard debris collection services. However, the frequency of these services may vary. Please contact the companies listed on the back for can sizes, costs, frequency of collection and special services.
