

CONTENTS

Executive Summary.....(Under separate cover)

Introduction PAGE

- ◆ Lake Management in Snohomish County..... 1
- ◆ Purpose of This Report..... 1
- ◆ Lakes in Snohomish County..... 1

Lake Characteristics

- ◆ Lake Size, Shape, Volume, and Depth..... 3
- ◆ Lake Watersheds and the Water Cycle..... 3
- ◆ Temperature and Stratification..... 4
- ◆ Dissolved Oxygen..... 5
- ◆ Nutrients..... 6
- ◆ Algae..... 7
- ◆ Zooplankton, Fish, Benthos, and the Food Web..... 8
- ◆ Aquatic Plants..... 9
- ◆ Water Clarity and Color..... 10
- ◆ pH, Alkalinity, and Conductivity..... 11
- ◆ Eutrophication and Trophic State..... 12

Summary and Comparison of Snohomish County Lake Conditions

- ◆ Comparison of Physical Characteristics 15
- ◆ Comparison of Shoreline and Watershed Development..... 17
- ◆ Summary of Recreational Opportunities..... 20
- ◆ Comparison of Temperature and Dissolved Oxygen..... 22
- ◆ Water Clarity Comparisons and Trends..... 23
- ◆ Comparison of Water Color..... 31
- ◆ Total Phosphorus Comparisons and Trends..... 32
- ◆ Comparison of Algae..... 37
- ◆ Comparison of Aquatic Vegetation..... 38
- ◆ Comparison of Trophic States..... 42
- ◆ Summary of Lake Problems..... 44
- ◆ Summary of Lake Conditions..... 46

Recommendations and Future Directions

- ◆ Water Quality Targets..... 48
- ◆ Summary of Recommendations for Individual Lakes..... 48
- ◆ Criteria for Future Actions..... 52
- ◆ Steps That All Citizens Can Take..... 52

Methods and Sources

- ◆ Volunteer Monitoring..... 53
- ◆ SWM Staff Monitoring..... 57
- ◆ Other Data Sources..... 57
- ◆ Data Management and Analysis..... 58

Glossary..... 60

References..... 63

Individual Lake Reports.....(All under separate covers)

- ◆ ARMSTRONG
- ◆ BEECHER
- ◆ BLACKMAN
- ◆ BOSWORTH
- ◆ BRYANT
- ◆ CASSIDY
- ◆ CHAIN
- ◆ COCHRAN
- ◆ CRABAPPLE
- ◆ ECHO
- ◆ FLOWING
- ◆ GOODWIN
- ◆ HOWARD
- ◆ KAYAK
- ◆ KETCHUM
- ◆ KI
- ◆ LOMA
- ◆ LOST
- ◆ MARTHA N.
- ◆ MARTHA S.
- ◆ MEADOW
- ◆ NINA
- ◆ PANTHER
- ◆ RILEY
- ◆ ROESIGER
- ◆ ROWLAND
- ◆ RUGGS
- ◆ SERENE
- ◆ SHOECRAFT
- ◆ SPRING
- ◆ STEVENS
- ◆ STICKNEY
- ◆ STORM
- ◆ SUNDAY
- ◆ WAGNER
- ◆ OTHER LAKES

LIST OF TABLES

Table 1. Trophic States and Associated Threshold Values.....	14
Table 2. Physical Characteristics of Monitored Snohomish County Lakes.....	16
Table 3. Shoreline and Watershed Development.....	19
Table 4. Recreational Opportunities.....	21
Table 5. Statistical Analyses of Water Clarity Averages.....	25
Table 6. Total Phosphorus Summer Averages 1996-2002.....	36
Table 7. Aquatic Plants Found in Snohomish County Lakes.....	40
Table 8. Estimated Trophic States of Snohomish County Lakes.....	42
Table 9. Summary of Lake Problems.....	44
Table 10. Summary of Lake Conditions.....	46
Table 11. Summary of Lake Recommendations.....	49
Table 12. Citizen Volunteer Lake Monitors.....	56

LIST OF FIGURES

Figure 1. Snohomish County Lakes.....	2
Figure 2. Lake Stratification.....	4
Figure 3. Typical Summer Dissolved Oxygen and Temperature Patterns in a Lake.....	5
Figure 4. Examples of Freshwater Algae.....	7
Figure 5. Watershield—A Native Aquatic Plant.....	9
Figure 6. The Natural Process of Eutrophication.....	12
Figure 7. Summer Water Clarity Averages 1990-2002.....	24
Figure 8. Trends in Water Clarity Summer Averages 1990-2002.....	27
Figure 9. Lake Water Color.....	31
Figure 10. Summer Average Epilimnion Total Phosphorus 1996-2002.....	33
Figure 11. Summer Average Hypolimnion Total Phosphorus 1996-2002.....	34
Figure 12. Volunteer Monitoring Form (Detailed).....	55
