

## Stormwater System Cleaning Contractors

The following cleaning contractors operate in Western Washington and may be equipped to maintain stormwater detention systems. This list is intended for informational purposes only and should not be construed as an endorsement of any particular company or a guarantee of work quality. Since this is not a complete list, owners may wish to conduct their own search using key words such as “sewer cleaning” or “septic tanks,” in order to compile cost estimates from several companies. Owners should confirm that a given company can provide the specific services that are needed.
