

Creswell Creek Habitat Restoration

Hand removal of
Himalayan
blackberries and
restoration using
native plants at the
intersection of OK Mill
Road and 191st.

Old Fish Ladder

New Fishway

Old Culvert

New Culvert

Tons of garbage removed from the pond at the upstream end of the fishway and vicinity.

Road gated to prevent dumping.

These projects were completed by Snohomish County Surface Water Management Steward and Habitat staff, Road Maintenance Construction Crews, and Washington Conservation Crews. Partial funding for replacement of the two fish blocking culverts was provided by U.S. Fish and Wildlife Service.
